

1. WLPR: The Analyst and The Evaluator

The Analyst and *The Evaluator* are recent additions to ASTD's Workplace Learning & Performance Roles series. The books, based on *ASTD Models for Workplace Learning and Performance*, offer self-guided job aids, worksheets and assessments, and an interactive CD-ROM. *The Analyst* (92 pages) and *The Evaluator* (102 pages) define roles and competencies, outline process models, and provide analysis and evaluation tools.

The Analyst and *The Evaluator* each cost US\$39.95 for ASTD members, US\$49.95 for nonmembers. To order contact ASTD at 800.628.2783; www.astd.org/store.

1.

2. Testing, Testing, 1-2-3

Instructors can create, deliver, grade, and report tests in a standard Web browser with a new assessment tool add-on to *LearnLinc 4.5*. Developers use an administration area to control test availability, time limits, and grading preferences. Participant statistics such as completion date, length of test time, and grade are stored in an SQL database for integration with most learning management systems. Question-building features include multiple-choice, true or false, short answer, or essay format and capability to add graphics, audio, and video files.

TestLinc is shipped with *LearnLinc 4.5*. For more information, contact LearnLinc at 518.286.7000, learnlinc.com.

2.

3. Project Management 101

Available over the Internet or on CD-ROM, *PM Basics* uses a series of video scenarios to teach the essential steps of project management: initiating, planning, executing, controlling, and closing. At every critical juncture, learners must choose a specific course of action. Learners' responses trigger best-practice descriptions. Special features include job aids, forms, checklists, a glossary, an FAQ, and a list of resources. Learners receive one Continuing Education Unit after successfully completing assessment exams.

PM Basics costs US\$495. To order, contact International Institute for Learning at 212.758.0177, iil.com.
