1. Survey ASP

Clarigent presents an easy-to-use, Web-based survey tool. Unlike some other online information-gathering tools, it offers such sophisticated features as cross-tabulating and branching (jumping to new questions based on user answers). And because Clarigent is an Application Service Provider, administrators and users need only a PC and an Internet connection to use it; there's no complicated software or hardware installation.

Clarigent's APS price varies. To order, contact Clarigent at 713.532.1410, www.clarigent.com.

3. Learning Management Framed

LearnFrame announces the new version of its Pinnacle Learning Manager, *PLM 4.11,* that now comes embedded with Microsoft Data Engine. Another prominent new feature is its online student-reporting function, allowing learners to go online at any time to access personal progress reports and monitor their training status. *PLM'*s new browser-based, online manager module lets managers track, report on, and document information for courses, individual learners, and groups. Additional new features include course authorization, upgraded security features, and a LAN student module for companies without an intranet or Web server.

PLM 4.11 price varies. To order, contact LearnFrame at 800.738.9800, www.learnframe.com.
