Alluring Apple

Who would've thought it possible to make Apple's iPod more tempting, but Apple's design team has done just that. A new touch wheel and back-lit buttons create a sleeker look, and an included dock provides a needed high-volume line out for powered speakers. The iPod is available in 10, 15, and 30GB versions. Apple iPod, US\$299-\$499; www.apple.com.

Timeless Image

Famed camera designer Leica Camera AG brings a touch of elegance to digital camera design with its Leica D-Lux. Within the stylish aluminum housing are a 3.2 million-pixel sensor, a high-performance Leica DC Vario-Elmarit triple-zoom lens, and a 64MB SD storage card.

Leica D-Lux, US\$820; www.leica.com.

Moving Pictures

With electronics, miniaturization often means reduced features and increased cost. And though Toshiba's SD-

P2500 portable DVD player isn't cheap, the 8.9-inch wide-screen, high-resolution LCD display, component video output, and high-resolution DVD-

Audio playback make this portable a steal.

Toshiba P2500, US\$799.99; www.toshiba.com.

Stellar Projection

Whether you're using Canon's LV-5200 at the office or on the go, it provides a 1.5X zoom lens for easy placement in any size room, a DVI-I interface for digital or analog input, and 800X600 SVGA resolution with bright, 1700 ANSI lumens projection.

Canon LV-5200, US\$1999; www.canon.com.
