

ATD Translated Titles

Thank you for your interest in ATD translated titles. ATD has negotiated agreements for more than 125 of its books in varying languages.

For your information, the work of translating books is often a long process that can take up to two or three years from the time a new agreement is negotiated with an international publisher and a final book is translated, printed, and sold by that publisher. The arrangement for selling foreign language rights is such that ATD does not own or control translated titles, so as a way to help you find ATD books that might be available in your country, this webpage includes the names of the publishing companies that purchased translation rights for the listed title. ATD does NOT sell translated books, nor can ATD assure you that these books will always be available.

Many books translated into simplified Chinese characters for Mainland China are available online through dangdang.com, amazon.cn, or kongfz.com. It's often simpler to find and purchase ATD translated titles through these online channels than directly from individual publishers.

Below is the list of ATD titles for which translation rights have been sold to international publishers. Not all these books are currently available. They are either*:

- Already translated, published, and available for purchase
- In the process of being translated and will be published at a future date
- Previously translated and published but are no longer available for purchase

ISBN	Title	Author(s)	Publisher	Language	Country	Publisher's Website Address
