## **British Response On Skills Research**

My attention has been drawn to the interesting article by Dr. Hinrichs on 'Research on Human Motor Skills, in the May 1962 issue of your *Journal*.

In view of the relevance of British research and application of research to

Dr. Hinrich's comments (last paragraph), I am sending herewith a bibliography of recent publications, from which you will see that there is much to be said, and a good deal that has already been said.
