

Post-Katrina Opportunities for Instructional Designers

We know how difficult it will be for the thousands of people displaced by Hurricane Katrina to put their lives back together. ZERONE is a small, Washington, D.C.-based company that provides e-learning services to government clients. We currently have some temporary/freelance opportunities for instructional designers. The job description can be found on our website www.zerone.com. We want to bring these opportunities to the attention of such qualified persons whose jobs have been displaced or disrupted by Hurricane Katrina, and let them know that we can be flexible in how we meet their work accommodations. Please check out our website and contact us if this looks like a fit
