

ATD Micro Course Library – Eligibility for Professional Development

This document provides a list of titles in the ATD micro course library* along with the primary capability that is covered in the module. ATD CI credential holders and candidates may use this list to determine if a specific module qualifies for professional development for recertification or initial eligibility.

In the document, there are four categories of professional development listed for each module. A check mark in the column means that the module is eligible for that specific category of professional development. The categories are as follows:

Cert Eligibility: Professional development points towards initial eligibility for the APTD or CPTD. APTD candidates must submit 28 hours of qualifying professional development and CPTD candidates must submit 60 hours of qualifying professional development to be eligible to sit for the exam.

General Recert: Recertification points under the “Other Continuing Education” category.

CPTD New Cap: Recertification points under the New Capabilities category for CPTDs. After May 1, 2021, CPTDs must complete a minimum of 20 hours of continuing education in the new capabilities category to recertify.

APTD New Cap: Recertification points under the New Capabilities category for APTDs. After May 1, 2021, APTDs must complete a minimum of 15 hours of continuing education in the new capabilities category to recertify.

*The ATD micro course library is available to ATD National Professional Plus members at no extra charge.
