## In Sync Management

*MyLenz*, a mobile work management solution from Métier, now has added capabilities. *MyLenz* integrates Pocket PC devices with *WorkLenz*, a Web-based software application for work management.

*MyLenz* enables users to schedule projects, make to-do lists, and transmit project status information from mobile devices to *WorkLenz* by synchronizing with Pocket PCs. Other features include enhanced notifications, personalized and customizable preferences throughout the application, and expanded timesheet functions. The timesheet serves as a central location for users to view, open, close, copy, and create tasks. Managers can view all tasks for their team members from that area.

*MyLenz's* cost varies. To order, contact Métier at 877.259.9099; [www.metier.com](http://www.metier.com).

## Mobile Knowledge

KnowledgeNet MOBILE offers interactive multimedia training for handheld devices using Macromedia's *Flash Player*. The solution is made possible through the e-learning platform, *Monsoon*, and the use of reusable learning objects. The only requirement is a Web browser with the *Flash Player* installed—allowing users to access content from a desktop, laptop, or PDA.

The training features audio instruction, and is self-paced to be accessible at all times. KnowledgeNet divides the content into small, downloadable portions; a full suite of mentoring services is also available for KnowledgeNet MOBILE.

KnowledgeNet MOBILE's cost varies. To order, contact KnowledgeNet at 877.602.5638; [www.knowledgenet.com](http://www.knowledgenet.com).

## Wireless Printer

The Hewlett-Packard DeskJet 995C looks just like any other inkjet printer. It features the same blue-gray styling as previous models in the 900C series, and it has a rated engine speed of 17 pages per minute for text, 13 for color. However, this isn't your standard printer. The DeskJet 995C features Bluetooth technology—a new concept that allows for low-power, short-range, wireless communication. Essentially, Bluetooth-enabled devices such as PDAs, cell phones, and laptops can communicate without cables within a 30-foot range at speeds up to 1mbps. Macintosh Operating System does not support Bluetooth.

DeskJet 995C costs US\$399. To order, contact Hewlett-Packard at 800.752.0900; [www.hp.com](http://www.hp.com).

## RoboInfo

*RoboInfo* software lets training professionals create, manage, and publish just-in-time information and online policies and procedures for performance support systems via corporate intranets. Its language search and navigation functions enable employees to access the information they need and complete job-related tasks. *RoboInfo* includes feedback reports that identify missing information from the online policies, procedures, and performance support systems.

*RoboInfo* costs US\$1,898. Discounted pricing is available for
