About the Practice Test Review

The Practice Test mirrors the actual exam, with one key difference: the **review feature**. After completing the test, you can view the correct answers, the explanation for each correct answer, and the capability being assessed. This helps you compare your reasoning with what the exam requires.

Please note:

- The review feature becomes available **only after you finish the Practice Test**.
- It can be accessed **one time** and **must be reviewed before closing the Practice Test**.

Tip: Set aside enough time to complete the full Practice Test and thoroughly review all explanations.

## Review and Change Your Responses Before Completing the Practice Test

→| Review Screen   Use the Review Screen to select and review a question, and to change your response. The Review Screen is accessible during and at the end of the test.

→| End Review   Once you are satisfied with your responses, end the test by clicking "End Review". Note: You **cannot return to questions** to change your responses.

Begin Review of the Explanations

You are now in the Practice Test Review Screen, which will remain accessible until you end the review and close the test completely.
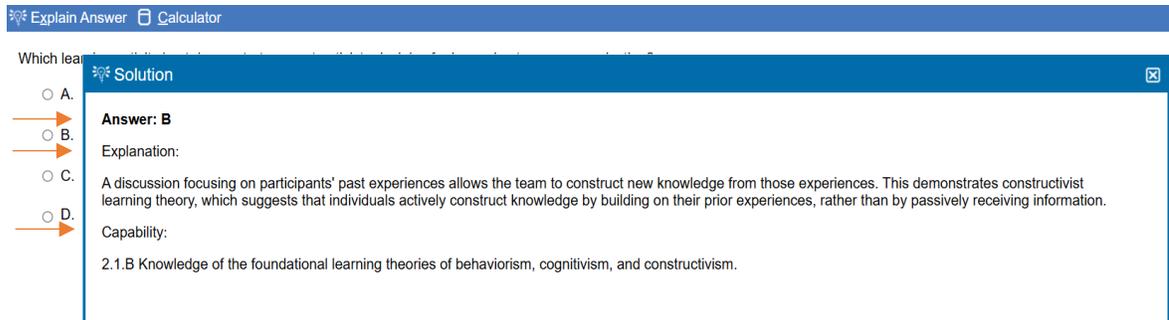

Review all Answers (APTD) or Review Answers by Sections 1 and 2 (CPTD), untimed.
1. Expand a section by clicking the "+".
    a. View the list of question numbers.
    b. At the upper right corner, is a total of questions and INCORRECT answers.
    c. A highlighted "flag" icon on the left, indicates a question you flagged for review.
    d. Each question is labeled" Incorrect" or blank (Correct).
    e. CPTD NOTE: All Section 2 questions are not marked correct or incorrect. See "Review the Detailed Solution" section below.
2. Hover over and click a question (ex., Question 6)

Review the Detailed Solution for Each Question

1. View the screen with the entire question and your response.
2. Click "Explain Answer" (top left) to see the "Solution".

In the Solution pop-out box, review the following:

1. Correct answer(s)
2. Explanation of the correct answer(s). Explanations for incorrect answer(s) *may* be included.
3. Capability area being tested.

Navigate between Questions

After reviewing the details, use the options at the bottom to navigate back to the full "Review Screen" or to view the "Previous" or "Next" question.

Click "End Review" to close out of the test completely. **You cannot return to the explanations after that point.**

Remember to utilize all three attempts of the Practice Test throughout your preparation. You will see some new and repeat questions with each attempt.
