New Raytheon Education Subsidiary

Raytheon Company has announced formation of Raytheon Education Company as a wholly-owned subsidiary to coordinate its activities serving the education market.

Raytheon Education Company is headquartered at Lexington, Mass., and is comprised of three divisions: D. C. Heath and Company, textbook publishers; Macalaster Scientific Company, suppliers of science learning apparatus; and Raytheon Learning Systems Company, manufacturers of electronic learning systems.

D. C. Heath and Company publishes textbooks and coordinated instructional materials for schools and colleges. The firm is headquartered in Boston and has principal sales centers in Indianapolis, Atlanta, Dallas, San Francisco, and Engelwood, N. J.

Macalaster Scientific Company develops and manufactures science learning aids used in conjunction with the many new science curriculum pro-

grams. Macalaster is headquartered in Waltham, Mass. and has manufacturing facilities at Nashua, N. H. Regional sales offices are at Nashua, N. H., Atlanta, Western Springs, Ill., and San Jose, Calif.

Raytheon Learning Systems Company produces closed circuit television systems, language and learning laboratories, multi-media teaching systems, student response systems, and driver education systems. The company is a consolidation of three formerly separate subsidiary firms: Dage-Bell Corp., Edex Corp., and Drivex Corp. Raytheon Learning Systems Company maintains manufacturing facilities at Michigan City, Indiana and engineering and programming facilities at Mountain View, Calif. National marketing headquarters are at Englewood, N. J. Other sales offices are at Atlanta, Michigan City, Ind., and Mountain View, Calif.
